

Hydraulic Loaders

Reliable Operation,
Precise Load Delivery,
Exceptional Power.

Material Handling Systems

IMT Hydraulic Loaders

Impressive boom reaches of up to five stories are just one characteristic of IMT hydraulic loaders. Heavy lift capacity, unparalleled operator control and visibility ensure maximum productivity. Externally routed hydraulic steel piping eliminates hose wear. Greaseless wear pads and bushings eliminate unnecessary service points.

Practical Features, Precise Positioning.

The IMT line of hydraulic loaders enables you to match equipment to your precise material handling needs. All models feature the legendary performance and innovative design that IMT cranes are famous for. Ideal for handling virtually any stacked or palletized material, IMT hydraulic loaders provide excellent lift capacity, impressive reach, precise maneuverability and exceptional operator visibility — even in tight places.

IMT hydraulic loaders feature a sturdy outrigger design for greater stability. A well-positioned operator platform with comfortable seating — along with chair-mounted joystick controls and foot pedals — provides maximum user comfort. Optional radio remote controls are fully proportional and help increase productivity.

When your applications require precise handling and placement of palletized material, look no further than the IMT family of hydraulic loaders.

Hydraulic Loader Specifications

Model	16035	16042
Rating	160,000 ft-lb (22.1 tm)	160,000 ft-lb (22.1 tm)
Horizontal Reach	35' (10.7 m)	42' (12.8 m)
Vertical Reach	47'4" (14.4 m)	54'3" (16.5 m)
Rotation	450° (7.9 rad)	450° (7.9 rad)
Lifting Height	47'4" (14.4 m)	54'3" (16.5 m)
Max. Lift Capacity	5825 lb (2642 kg)	5825 lb (2642 kg)

IMT fork attachments are specially designed for IMT to complement the structural components and hydraulic systems found in our family of hydraulic loaders — providing total systems integration.

Stability is ensured through a uniquely designed outrigger system that is fully deployed when extended.

Reliable Equipment, Dependable Service.

Beyond the purchase of our products, you receive the support of factory-trained sales personnel. They can assist you with solutions to specific applications, the development of proper replacement cycles and maintenance schedules. IMT can even arrange the financing for your IMT product.

Our focus on specific markets ensures that IMT products are designed with your needs in mind. Extensive customer involvement in both the design and field testing of IMT products guarantees that even the smallest detail is not overlooked.

Strict conformance to industry standards is adhered to throughout the design, manufacturing and assembly stages. Each IMT product is fully tested upon completion — before it is shipped to you.

Factory-trained service technicians from a network of over 100 distributors worldwide provide support for each piece of equipment that we produce. For the name and number of your nearest IMT distributor, call (800) 247-5958.
