Tool Box Tray (51711548)	106
Tank Bracket, 2-Bottle (51719752)	107
Tank Bracket, 3-Bottle (51720021)	108
Pull-Out Bin Sets	109

Tailgate & Bumper Options 111

Tailgate Assembly (51718801)	112
Tailgate - Workbench (51720357)	113
Bumper Hitch & Workbench Options	115

Air System Options 117

Air Tank Options	117
Air Tank, Ford 2017 (99906094)	118
Air Tank Top SDPK (99906107)	119
Air Tank Kit, 22.5 Gallon (51706697)	120
Air Tank Kit, 35 Gallon (51708336)	121
Air Tank Kit, 58 Gallon (51708369)	123
Air Tank Drain Assembly (51709358) Effective 3-14-16	125
Air Tank Drain Assembly (51709358)	127
Air Tank Kit, 28 Gallon (51710158)	128
Air Tank Drain Assembly (51713771) Effective 3-14-16	129
Air Tank Drain Assembly (51713771)	131
Air Tank Kit, 22 Gallon (51714204)	132
Air Tank Kit, Dual 10 Gallon (51717200)	134
Stepless Ear Clamp Installation (99904411)	136
Moisture Separator / Regulator / Oiler Assembly (51714805)	137

Moisture Separator / Regulator / Oiler Parts (51714805)	138
Moisture Separator / Regulator / Oiler Installation	139
Hose Reel (51725644)(Eff. 6/05/14)	140
Hose Reel (51713651)(Through 6/05/14)	141

Telescoping Tops 143

Telescoping Loadbed Tops (99905244)	143
Tethered Lid Assembly (51726711)	144

Boom Supports 147

Boom Support-Full Assembly (99905632)	148
Boom Support Saddle (51725454-Wide 51725455-Narrow)	149
Boom Support, Adjustable (52723757)	150
Boom Support, Adjustable, 1015 & 2020 (51718847)	152
Boom Support, Electric Cranes (51720308)	154
Boom Support Placement (99905157)	156
Boom Support - Adjustable (51725142-Tall/51725144-Short)	157
Adjustable Boom Support Placement (99905640)	159

Stabilizers 161

Front Stabilizer Matrix (Dominator I)	162
Stabilizer Kit, Front Drop-Down (52723610)	163
Stabilizer Kit, Front Pull-Out (13") (52724169)	164
Stabilizer Kit, Front Pull-Out (13") (51725574)	165
Stabilizer Kit, Right Front Manual Out/Manual Down (19") (52723617)	166
Stabilizer Kit, Right Front Manual Out/Manual Down (19") (51725575)	167
Stabilizer Kit, Manual Out / Power Down (31724012/99905235)(Eff. 3/29/13)	168
Stabilizer Kit, Manual Out / Power Down (31724012/99905235)(Through 3/28/13)	170
Stabilizer Kit, Power Out / Power Down (31724013 / 99905236)(Eff. 3/29/13)	172
Stabilizer Kit, Power Out / Power Down (31724013 / 99905236)(Through 3/28/13)	174
Stabilizer Kit, Manual Out / Power Down (31724012/99905235) (Effective 02/01/16)	177
Stabilizer Kit, Manual Out / Power Down (31724012/99905235) From: 3/29/13 To: 01/29/16	179
Stabilizer Kit, Power Out / Power Down (31724013/99905236) Effective 02/01/16	181
Stabilizer Kit, Power Out / Power Down (31724013/99905236) From: 03/29/13 To: 01/29/16	183
Rear Stabilizers, Manual Out / Manual Down (31719659 / 99904047) Eff. 3/29/13	185
Rear Stabilizers, Manual Out / Manual Down (31719659 / 99904047)(Through 3/28/13)	187
Stabilizer Assembly (51718746)	189
Stabilizer Assembly, Stationary Mount (51718747)	190
Cylinder (51718751) (Thru. 9-05, Eff. 2/07)	191
Valve Bank, Power Out/Power Down (73734229)	193
Valve Bank, Power Out/Power Down (73734228)	195

Electrical & Lighting 197

Electrical Panel, (99905112)	198
Electrical Panel, Dominator I-II (99905112) (Effective 7/24/14)	201
Electrical Panel, Dominator I-II (99905112) (Through 7/24/14)	204
Wiring Installation (99905415)	207
Ribbon Cable Replacement Parts (99905415-2)	212
Ribbon Cable Connection Replacement Instructions	213

Dominator Electrical Troubleshooting.....	214
77441647 S/T/T	216
77441598 S/T/T	220
Electrical Installation (99905307) Effective: 7-22-16	224
Electrical Installation (99905307).....	226
Electrical Harness, Chassis, Dominator I-II (77441444)	228
Electrical Harness, Power Panel, Dominator I-II (77441438) (Through 04/23/13).....	230
Electrical Harness, Power Panel, Dominator I-II (77441610) (Effective 02/01/16)	232
Electrical Harness, Power Panel, Dominator I-II (77441516) From: 04/24/13 To: 01/29/16	234
Electrical Harness, Left Sidepack (77441609) (Effective 02/01/16)	236
Electrical Harness, Left Sidepack (77441515) From: 04/24/13 To: 01/29/16	238
Electrical Harness, Left Sidepack (77441439) (Through 04/23/13)	240
Electrical Harness- Rear Body Lights (77441437) Effective 5-16-16	242
9' Dom Harness, Flood & Marker Lights (77441611) (Effective 02/01/16)	244
9' Dom Harness, Flood & Marker Lights (77441518) From: 04/24/13 To: 01/29/16	246
9' Dom Harness, Flood & Marker Lights (77441440) Through 04/23/13	248
11' Dom Harness, Flood & Marker Lights (77441612) (Effective 02/01/16)	249
11' Dom Harness, Flood & Marker Lights (77441519) From: 04/24/13 To: 01/29/16	251
11' Dom Harness, Flood & Marker Lights (77441441) Through 04/23/13	253
Com Bus Replacement Harness (77441580)	254
Chassis Interface Installation (99905369).....	255
Flood Light Installation (99906020) (Effective 02/01/16).....	256
Compartment / Flood Light Installation (99905266) (Through 01/29/16).....	258
Installation, Front Flood Light Bracket (99905305) Through 01/29/16	260
LED Light Installation (99905850) Effective 2/1/16.....	262
LED Light Kits (Effective 02/01/16).....	265
LED Light Kits (Through 01/15/16).....	266

Miscellaneous Options 267

Headache Rack (99905201)	268
Headache Rack (99905361)	269
Salvage Installation Kit (99905243)	270
Salvage Pump Assembly (51721592)	272
Salvage Pump Installation (51713779)	273

Revisions

DATE	LOCATION	DESCRIPTION
20110831	51719752, 51720021	ECN 11565 - 51719752, 51720021 hardware kits. Added note about simultaneous operation and F450/550.
20110906	99905253	ECN 11555- Added spring on doors.
	51719752, 51720021	ECN 11565- Updated tank hardware.
20111005		ECN 11555 - Miscellaneous updates after pre-production builds.
20111201		ECN 11628 - Update stabilizer wording, decals.
		ECN 11607 - Updated shelf divider kits by body side.
20111215	Installation	ECN 11627 - Added new compressor models.
20120117		ECN 11666 – Updated CAS60R installation.
20120119	52723757	ECN 11650 - Updated boom support.
	31724012, 31724013	ECN 11656 - Added washer to stabilizer kit.
	77441437	ECN 11669 - Changed connection on CJ700.
	Decal graphics	ECN 11628-1- Updated decal graphics
	99905305	ECN 11638 - Added wire routing notes.
20120302	52723757, 99905266	ECN 11689 - Hardware changes
	99905363	ECN 11674 - Modified mounting pattern
	Electrical	Added installation and troubleshooting information.
20120420	51718751	ECN 11581 - Updated cylinder drawing.
	51713779	ECN 11632, - Added salvage pump mounting drawing.
20120523	77441438	ECN 11746 - Added compressor speed control.
	99905067	ECN 11571- Updated installation drawing.
	51713779	ECN 11744 - Salvage pump plate removed.
	99905160	ECN 11745- Changed left sidepack shelf ends.
20120724	52723617	ECN 11769 - Lengthened cap screw.
	99905307	ECN 11761 - Added 72060639, BOM change.
	99905201	ECN 11760 - Added 72060026, drawing change.
20130606	99905307	Updated parts list per engineering mark-up.
20130927	LED Lights	Updated LED light kits table per engineering.
	52723610	ECN 12033 – Updated drawing and BOM table.
	51722574	Added per engineering.
	51722575	Added per engineering.
	99905253	Added callout items 5 and 9.
20131118	99905632	Added per engineering
	99905640	Added per engineering
20130303	51712986	Added per engineering
	51719752	Updated
	51720021	Updated
20140425	99904047 99905235 99905236	ECN 11941 – Added new drawings Effective 3/29/13.
20140514	Key Cylinder Replacement	ECN 12201 – New latch assembly Effective 9/28/13.
20140529	99905112 99905307	ECN 12166 – Relocate power module ECN 12087 – Update BOM hardware

Oshkosh Corporation Classification - Restricted

20140625	51710172	ECN 12210 – BOM change: 60142620 was 60114831, 60142621 was 60114832.
	77441580	Added per Engineering.
	51725644	ECN 12072-1 – New Hose Reel Kit
	99905266	ECN 12181 – Update Flood Light Bracket, 72602097 was 72060004.
	51725142 51725144 51725454 51725455	ECN 12235 – Boom Support Saddle Revision, added sub-assemblies.
20140828	Panel Ribbon Cable Installation	ECN 12247 – Removed 77441465 & 77441466 from BOM. Added 'where applicable' note.
	99905244	ECN 12255 – 71415474 was 71412598
	77441444	Added per Engineering.
	99905244	ECN 12268 – removed 8" access lids from 35"-48" tele tops.
20140925	Hydraulic Oil Reservoir Decals	ECN 12279 – Mobil Oil info removed from 70394189
20150925	99905236	ECN12465-Stabilizer Kit, Power Out / Power Down
20151112	51726711	CN231-ADDED NEW 8" TETHERED LID ASSM
20151130	99906010	CN226-Added CAS80R Compressor
20151130	99905266	Added 60139526, Removed 60117375
20151202	99906010	CN226-Added revised drawing
20151202	51726670	CN226-Added hydraulic reservoir.
20151221	99906023	CN197-Added Door Latch Installation w/o backing plate.
20160115	99903665	ENC12379-Master Lock rod hanger bracket changes
20160217	CN174-5	LED LIGHTS
20160318	99906020	CN174-12-Changes to floodlight drawings
20160325	99905129	Corrected Ladder Installation BOM from 52723864 to 51726580
20160822	77441598	ADDED DRAWINGS.
20160907	99905307	CN421-Changes in elec kits 51723807,51724398,51725466. Added qty. of 4 #10-24 hardware.
20160907	CN421	CN421-Changes in electric kits 51723807,51724398,51725466. Added qty. of 4 #10-24 hardware.
20160912	73734229	Corrected BOM title.
20160913	Body Placement Decals	CN455
20160914	Pull out bin sets	CN441-Made corrections to qty in drawer sets for 72063001
20160914	99905632	UPDATED BOM
20160921	99906093 99906098 99906095 99906096 99906094 99906107	CN464-3, UPDATED DRAWINGS FOR 2017 FORD CHASSIS CHANGES.
20170116	Options	CN174-changed option 7 to LED Lights

CHAPTER 1

Equipment Safety

Personnel Requirements

Certain inherent risks are associated with heavy equipment, including IMT Crane Body Mechanics Trucks, due to the nature of their use. Personnel working in the area of these vehicles are subject to certain hazards that cannot be guarded against by mechanical means but only by the exercise of intelligence, care, and common sense. It is therefore essential for the owner of this equipment to have personnel involved in the use and operation of these vehicles who are competent, careful, physically and mentally qualified, and trained in the safe operation of this equipment.

Training

Prior to using any of the equipment installed on or incorporated in the IMT Crane Body Mechanics Truck, you must:

- Have already been fully trained to operate the vehicle and equipment.
- Have demonstrated the effectiveness of your training and the extent of your knowledge.

BEFORE operating this vehicle and any associated equipment, you, the operator or maintainer, must read, understand, and follow the instructions found in the operator and maintenance manuals from the manufacturers of major components used on this vehicle or equipment.

Proper tools and service equipment must be used, taking appropriate precautions as required by accepted safety practices, to prevent personal injury and/or equipment damage.

If you are uncertain about the safe operation of any aspect of this vehicle or equipment, stop immediately and seek further training. You are the only person who knows what you don't know. You must speak up about the things you don't know, so you can learn about them before someone is injured or killed because of your lack of knowledge. You are responsible for learning how to operate this vehicle and equipment under all conditions without having to pause to read this manual.

 WARNING	
	• Only trained personnel should operate this equipment. • Do not operate or service until you have read and understood the operation and service manual supplied with this equipment. • Manuals can be obtained from manufacturer's website or by contacting customer service. • Operating this equipment without knowledge or training may lead to injury or death for you or others.

Hazards When Moving About the Vehicle

Only climb, step, or walk on this vehicle where there are slip resistant surfaces and the opportunity to maintain three points of contact at all times. Some surfaces that should not be stepped on are marked with a *No Step* warning. All smooth surfaces should be avoided even if not specifically labeled with a No Step sign. If maintenance or service requires access to a point on the vehicle not provided with slip resistant surfaces and hand holds, then use OSHA approved ladders, stepstools, or other safe means for access.

DO NOT ride on the outside of the vehicle when it is moving.

 WARNING	
	No Step
Railings NOT provided. Surface may be slippery - NOT intended for stepping, standing or walking. Falls may injure or kill. 70399191	

 WARNING	
FALL HAZARDS	
	When climbing on or off vehicle, ALWAYS: - Face vehicle. - Use steps and handholds. - Maintain three points of contact with vehicle (two feet and one hand or two hands and one foot.) - Keep steps, handholds, and walkways clean. - Use extra caution when wet, icy or muddy. - Replace surfaces when worn. Slips and falls can injure or kill.
	- Never ride on vehicle when it is in motion. - Fall from moving vehicle may injure or kill. 70399192

Crane Safety

Your IMT Mechanics Truck may include a crane. Follow all operating procedures posted on the crane and body and included in the operator's manual for safe crane operation, including:

- Powerline safety
- Proper job-site set-up
- Using stabilizers

If your equipment includes a crane, refer to your crane operation and safety manual prior to operating your crane.

Hydraulic Hazards

Certain equipment on this vehicle, including cranes and compressors, may be powered by high pressure hydraulic fluid. Most heavy equipment operates on hydraulic power and it is common throughout industry. High pressure hydraulic fluid leaks are dangerous. If you see a hydraulic leak, shut down the equipment and call in a service technician trained in safe methods of troubleshooting and servicing hydraulic power equipment.

Never search for leaks with your hands or other body parts. High pressure hydraulic fluid at pressures as low as 100 psi can penetrate skin. Use a piece of wood or cardboard to detect leaks, keeping hands and other body parts well away from the potential source of the leak.

If you suspect that you have been exposed to a high pressure hydraulic skin penetration, seek medical help immediately. The high pressure injection of a fluid such as hydraulic oil, grease and paint constitutes a medical and surgical emergency, requiring access to appropriate specialist surgical expertise as soon as possible. Often the injury appears minor. Don't be fooled. Fluids injected under the skin are highly toxic. The injury will lead to gangrene, amputation, and death if not treated promptly.

Most doctors are not trained in treating hydraulic related injuries. Make sure they are aware of the potential problems and get the recommend treatment needed to treat the injury.

Equipment Daily Safety Inspections

Use the following list as a guide when you are inspecting your unit at start-up and during operation. You may be required to log your inspection results using the Crane Log (IMT Manual No. 99900686) or the inspection checklist in the crane manual:

- 1 Vehicle - Check oil level, battery, lights, brakes, and tires for inflation, pressure, cuts, and loose or missing wheel lugs.
- 2 Safety Accessories - Check for proper function, oil levels, leaks and malfunctions.
- 3 Hydraulic Oil Reservoir - Check for proper oil level. Check for leaks and blockages.
- 4 Weldments - Check visually for damage, especially cracks or breaks in welds.
- 5 Fasteners - Check pins, sheaves, nuts and bolts for breakage, excessive wear and tightness.
- 6 Covers & Guards - Check for missing or improperly maintained covers and guards.
- 7 Operation Placards and Safety Decals - Check for illegible or missing decals and placards. Refer to the Decal section of this manual for more information on the required decals.
- 8 Work Area - Check for hazards including powerlines, obstructions, etc.

Replace or repair any items as needed prior to equipment operation.

In addition, inspect your crane per the daily safety inspection instructions in the crane manual.

 DANGER	
HYDRAULIC FLUID HAZARDS	
	High pressure fluid leak will pierce skin. Release pressure before working on system. Detect leaks with wood or cardboard. Wear sturdy gloves and goggles. NEVER use fingers. Fluid injected in skin must be surgically removed by trained doctor immediately or gangrene will result. Fluid injected into skin will injure or kill.
	Burn Hazard. Oil temperatures may exceed 120 ° F (35 ° C). Do not touch. Hot surface can burn skin.

CHAPTER 2

Parts Ordering Information

GENERAL

This remainder of this manual contains the exploded parts drawings and accompanying parts lists for the assemblies used on this body. For equipment such as cranes, compressors, and winches, refer to the appropriate service manual.

BODY IDENTIFICATION

Every IMT body has an identification placard (see figure). This placard is attached in the upper left hand corner of the left vertical 1 compartment.

LV2, RV2 on 11' Dominator I only.

When ordering parts, communicating warranty information, or referring to the unit in correspondence, always include the serial number and model numbers. Address all inquiries to your authorized IMT distributor or to:

Iowa Mold Tooling Co., Inc.
Box 189, Garner, IA 50438-0189
Telephone: 641-923-3711
Technical Support Fax: 641-923-2424

The identification placard is a rectangular form with a black background and white text. At the top, it reads "IOWA MOLD TOOLING CO., INC." and "BOX 189, GARNER, IA 50438-0189". Below this, there are three horizontal white bars for entering information. The first bar is labeled "MODEL NUMBER", the second is labeled "SERIAL NUMBER", and the third is labeled "MFG DATE". On the right side of the form, there is a vertical white bar with the number "70029119" written vertically. There are two small circles on the left side of the form, one above the "MODEL NUMBER" bar and one below the "SERIAL NUMBER" bar.

PARTS IDENTIFICATION

To insure proper replacement parts are received, specify the complete number/letter sequence for any part requested. The parts sections of this manual can assist you in determining the correct part number.

ORDERING REPAIR PARTS

When ordering replacement parts:

- 1** Give the model number of the unit.
- 2** Give the serial number of the unit.
- 3** Specify the complete part number. When ordering cylinder parts, or one of the main weldments, always give the stamped part number.
- 4** Give a complete description of the part.
- 5** Specify the quantity required.
- 6** Fill in your serial number to assist in future replacement parts ordering.

DOMINATOR SERIAL NUMBER:

--

Planned Maintenance Kits

Maintaining your equipment properly will extend its function and performance over the life of the machine. IMT has developed planned maintenance kits for many of its products which include filters, air and hydraulic filter elements, oil, grease, and other maintenance items. To order an IMT planned maintenance kit, please contact IMT customer service at 800-554-4421. For additional information on IMT planned maintenance kits for your equipment, please contact IMT Technical Support at 800-554-4421 or (641) 923-4633.

Frequency	Task	Dominator Body	CAS435HA COMP	CAS2545 COMP	CAS3560 COMP	CAS40P COMP	CAS60R COMP	CAS45R COMP
Monthly	Drain moisture from compressor air tank.							
Every 6 months	Change compressor oil filter element.			70048233	73396426		70048249	70049252
	Change compressor oil.		51085090	89086201	89086201	89086220	89086222	89086222
	Change compressor air filter.		70048217	70048217	70048217	71414999	70048250	70048253
	Change compressor separator element.						70048248	70048251
	Change moisture separator filter element.	70048209						
	Change hydraulic oil.							
	Change filter element and breather cap element on Dominator hydraulic reservoir.	73052153 filter element, 70048245 breather element						
Once per year (Every 12 months)	Change compressor coalescer filter.			70048234	73396427			
	Check belts on compressor. Change if needed.					70580210 (3)	70580211	70580212

Planned Maintenance Kit part numbers:

- DOMINATOR - CRANE - CAS435HA COMPRESSOR - 91724292 (12-month kit); 91724450 (36-month kit); 91724453 (60-month kit)
- DOMINATOR - CRANE - CAS3560 COMPRESSOR - 91724293 (12-month kit); 91724451 (36-month kit); 91724454 (60-month kit)
- DOMINATOR - CRANE - CAS2545 COMPRESSOR - 91724294 (12-month kit); 91724452 (36-month kit)
- DOMINATOR - CRANE - CAS40P COMPRESSOR - 91724477 (36-month kit); 91724480 (60-month kit)
- DOMINATOR - CRANE - CAS60R COMPRESSOR - 91724478 (36-month kit); 91724481 (60-month kit)
- DOMINATOR - CRANE - CAS45R COMPRESSOR - 91724479 (36-month kit)

Maintenance Kits include compressor coalescer filters, oil filters, hydraulic reservoir filters, air filters, compressor oil, moisture separator filters, and Moluballoy grease for greasing the gear bearing teeth. Crane grease and hydraulic oil not included in 1-year kits. See the crane parts manual for specific greasing locations.

Equipment Specifications

SPECIFICATIONS	9-foot	11-foot
Body Rating	52,000 ft-lb (7.3 tm)	52,000 ft-lb (7.3 tm)
Body Weight	2,728-2,805 lb (1237 - 1273 kg) (Based on configuration)	3,103 lb to 3,495 lb (1408 - 1585 kg) (Based on configuration)
Body Width (including rain eaves)	96 in (244 cm)	96 in (244 cm)
Sidepack Height	44 in (112 cm)	44 in (112 cm)
Sidepack Depth	22 in (56 cm)	22 in (56 cm)
Cargo Deck Width	50 in (127 cm)	50 in (127 cm)
Workbench Depth	21 in (53 cm)	21 in (53 cm)
Tailgate Height	10 in (25.4 cm)	10 in (25.4 cm)
Storage Capacity (including workbench)	97.2 ft³ to 104.2 ft³ (2.8 - 3.0 m³) (Based on configuration)	120.5 ft³ to 166.1 ft³ (3.4 - 4.7 m³) (Based on configuration)
Angle of Departure	15°	15°

Door Opening Dimensions - 44" High Sidepacks		
LH 1st Vertical	29.5" W x 38.5" H (74.9 x 97.8 cm)	29.5" W x 38.5" H (74.9 x 97.8 cm)
LH 2nd Vertical	N/A	16.5" W x 38.5" H (41.9 x 97.8 cm)
LH Horizontal	43.0" W x 21.0" H (109.2 x 53.3 cm)	44.5" W x 21.0" H (113.0 x 53.3 cm)
LH Rear	18.0" W x 38.5" H (45.7 x 97.8 cm)	18.0" W x 38.5" H (45.7 x 97.8 cm)
RH 1st Vertical	29.5" W x 38.5" H (74.9 x 97.8 cm)	29.5" W x 38.5" H (74.9 x 97.8 cm)
RH 2nd Vertical	N/A	16.5" W x 38.5" H (41.9 x 97.8 cm)
RH Horizontal	43.0" W x 21.0" H (109.2 x 53.3 cm)	44.5" W x 21.0" H (113 x 53.3 cm)
RH Rear	18.0" W x 38.5" H (45.7 x 97.8 cm)	18.0" W x 38.5" H (45.7 x 97.8 cm)

Standard Configurations

9-foot body	44" (111.8 cm) standard left-hand and right-hand sidepacks
	Right front raised* to 60" (152.4 cm)
11-foot body	44" (111.8 cm) standard left-hand and right-hand sidepacks
	Right front raised* to 60" (152.4 cm)
	Left front raised* to 60" (152.4 cm)
	Right front and left front raised* to 60" (152.4 cm)
	Right front raised* to 60" (152.4 cm); All left side compartments raised to 60" (152.4 cm).
	All raised to 60" (152.4 cm)
* Includes 1st and 2nd vertical compartments.	
NOTE: Crane box is 52" high for all configurations.	

Body Materials

The sidepacks are constructed of 10-gauge and 12-gauge galvanized steel. The floor structure is constructed of 10-gauge galvanized and 1/8" deckplate steel. The workbench is constructed of galvanized and cold rolled steel.

Body Weights

9 ft RH & LH standard	2,728 lb (1237 kg)
9 ft RF raised	2,806 lb (1273 kg)
11 ft RH & LH standard	3,103 lb (1407 kg)
11 ft RF raised	3,212 lb (1457 kg)
11 ft LF raised	3,212 lb (1457 kg)
11 ft RF and LF raised	3,317 lb (1505 kg)
11 ft all raised	3,495 lb (1585 kg)

Body Sub-Structure

Patented inverted A-frame design constructed of 10-gauge galvanized material with integral crane box, front stabilizer receptacles and rear stabilizer housing.

Electrical System

The electrical system consists of a central power distribution point in the crane box using automotive-style harnesses. The circuits use white wire with the circuit function printed every 3". The harness is protected by an overbraid that is heat- and cut-resistant.

Doors

The doors are constructed of 14-gauge galvanized steel with internal formed eaves and hemmed edges. The latches are a 3-point, locking rotary T-handle style. They are constructed of cast steel with a powder-coat finish. The hinges are stainless steel with composite washers.

Storage Capacity

9 ft RH & LH standard	97.2 ft ³ (2.8 m ³)
9 ft RF raised	104.2 ft ³ (3.0 m ³)
11ft RH & LH standard	120.5 ft ³ (3.4 m ³)
11 ft RF raised	131.3 ft ³ (3.7 m ³)
11 ft LF raised	131.3 ft ³ (3.7 m ³)
11 ft RF raised and LF raised	142.2 ft ³ (4.0 m ³)
11 ft all raised	166.1 ft ³ (4.7 m ³)

Options

1. Drawers and drawer sets	7. LED Lights
2. Standard adjustable shelves	8. Work lights
3. 3" (7.6 cm) high divided adjustable shelves	9. High-intensity light package
4. Stabilizers - manual and hydraulic	10. Compartment pressurization system
5. Workbench vises and vise plates	11. Air systems
6. Energy-absorbing boom support	12. Telescopic cranes up to 52,000 ft-lb (7.3 tm)

Simultaneous Operation on Ford F450/550

NOTE:

On a Ford F450 or F550 chassis, when the crane is under operating near maximum capacity, there may be insufficient transmission output to operate the crane and compressor simultaneously. The crane and compressor must be operated individually until the crane load moment is reduced. If both systems are operated simultaneously with the crane near maximum capacity, the compressor may unexpectedly slow down or cease operation.

Key Cylinder Replacement

KEY CYLINDER REPLACEMENT: The Dominator service vehicle uses door latch assembly 72661599 on all compartment doors. Upon installation, the latch assemblies have a common key cylinder. However, the key cylinders can be changed so compartments use different keys. This feature allows different Dominator compartments to have different keys, thus increasing security.

Latch Assembly 72661599 Effective 9/25/13

72661713	Latch Assembly **shown at right
----------	---------------------------------

Standard Key Cylinder:

72661727	Cylinder/Key Compression Latch J223
----------	-------------------------------------

Alternate Key Cylinders:

72661728	Cylinder/Key Compression Latch J201
72661729	Cylinder/Key Compression Latch J202
72661730	Cylinder/Key Compression Latch J203
72661731	Cylinder/Key Compression Latch J204
72661732	Cylinder/Key Compression Latch J205

Compressor Installation, CAS435HA - CAS3560 - CAS2545 (99905254)

NOTE:

When installing any compressors, maintain a minimum clearance of 10" on each end of the compressor. If installing a compressor with a hydraulic aftercooler, maintain a minimum space of 10" between the compressor and aftercooler, while still maintaining the 10" of clearance on each end of the compressor-cooler combination.

Dominator I - 6000 & 7500 Installation Kit (99905066)

NOTES (SEE REFERENCE NUMBER IN BOX):

- 1 INSTALL THE LEVEL INDICATOR (72042097) PARALLEL TO THE DOOR REINFORCEMENTS.
- 2 TORQUE MOUNTING BOLTS TO 680 FT-LB (94 KG-M). (4 PLACES) USE THE SUPPLIED 3" (7.6 cm) BOLTS WITH A CRANE BOX TOP PLATE THICKNESS OF 1/2" TO 5/8" (1.3 cm TO 1.6 cm) ONLY. DETERMINE THE THICKNESS OF THE CRANE BOX TOP PLATE PRIOR TO MOUNTING. IF DIFFERENT LENGTH BOLTS ARE REQUIRED, THEY MUST BE 1-8, GRADE 8, ZINC COATED, OF PROPER LENGTH. FAILURE TO USE PROPER LENGTH BOLTS MAY CAUSE THE BOLTS UNDER THE CRANE SWING BEARING TO BOTTOM OUT BEFORE TORQUING. INSURE A MINIMUM OF 1-1/2 THREAD ENGAGEMENT.

Blower Fan Installation (99905928)

Electric Crane Installation (2003i, 3203i, 4004i, 5005i, 6006i) (99904394)

Install the IMT 2003i, 3203i, 4004i, 5005i, and 6006i model cranes using the instructions in 99904394. In addition to meeting the minimum chassis specifications noted in the Technical Data section of this manual, make sure there is sufficient room for mounting the crane and the platform is strong enough to support the crane and rated load. Install the crane only on an IMT designed and approved truck body. The body must be designed to sustain the forces imposed by the crane when lifting the full rated load. Install the body on the chassis before installing the crane. Refer to the following table for parts referenced in the following crane installation drawings.

CRANE INSTALLATION PARTS LIST				
ITEM	PART #	DESCRIPTION	KIT #	QTY

To install the crane:

- 1 Use a lifting device capable of lifting the weight of the crane as indicated in the Technical Data section of this manual. Attach fabric slings to the crane lower boom, centered approximately 18 inches (46 cm) from the mast hinge. Make certain the crane is well balanced on the slings by slowly lifting approximately 6" (15 cm) off the ground. Lift the crane and apply a bead of waterproof compound, such as silicon based caulk, to the bottom of the base. Move the chassis under the crane and lower the crane into the desired position. Install the mounting cap screws (item # 15) and washers (item #16) to secure the crane base to the truck body (see figure). Torque the 3/4" cap screws (used on models 3203i and 4004i) to 280 ft-lb and torque to 1" cap screws (used on models 5005i and 6006i) to 680 ft-lb.

NOTE:

The 3/4-10 x 2.5" grade 8 zinc coated capscrews (models 3203i and 4004i) are designed for a crane box thickness of 1/2" only.

The 1-8 x 3" grade 8 zinc coated capscrews (model 5005i and 6006i) are designed for a crane box top thickness of 7/8" to 1" only.

A different crane box may require different capscrews. If different length bolts are required, they must be the same size and of sufficient length. Failure to use proper length bolts may cause the bolts to bottom out before torquing.

MOUNTING PATTERNS

- The electrical power switch (item #7) provides power for the crane. Install the switch onto the power unit cover.

- Install the vehicle level indicator (item #8) parallel to the door reinforcements.

- 4 After mounting your crane, wire the crane to the vehicle's 12VDC electrical system using the following steps. Use the parts list above to identify parts. Your crane installation kit, 51721572, includes a 10.7 m (35') long cable, IMT # 89044276 (item #13 in the parts list). Use this cable to ground the auxiliary battery, the underhood battery, and to connect the batteries to the fuses and the fuses to the crane on-off switch. Cut the cable to length after determining the lengths required.
- 5 Ground the crane by connecting the crane ground cable to bare metal inside the crane box.

- 6 Connect the crane power cable from the male power cable connector to the on-off power switch. Connect cable (item #13 - 89044276), cut to length, from the crane power switch (item #7) to an electrical bulkhead connector, which will be connected to the fuses in step #8. Use 3/8" (0.95 cm) ring terminals (item #9 - 77040209) for each connection. Heat shrink the connections (item #14 - 89392333).

⚠ WARNING

Protect the power cable from damage by fastening it inside the frame channel and covering it with protective covering including loom, conduit, etc. Be sure to use rubber grommets or other protection when running the power cable through steel bulkheads.

- 7 Use approximately 4' (1.2 m) of the cable (item #13) to ground both the vehicle battery and auxiliary battery. Connect one end of the ground cable to the negative terminal on the battery, and the other end to bare metal on the truck body. Use a 5/16" (0.79 cm) ring terminal (item #10 - 77040529) to connect to the truck body.

⚠ WARNING

Install the ground cable to the negative terminal of the batteries! The crane electrical ground completes the electrical circuit through the structure of the crane to the vehicle frame. The vehicle factory ground is NOT sufficient to carry the current required by the crane. Without this extra ground cable, your crane may not operate at rated capacity, and motor, contactor, or electrical damage may occur.

- 8 Mount one 225-amp fuse holder (item #11) close to the vehicle battery in a location which can be easily accessed if the fuse needs to be replaced. Repeat with the auxiliary battery. Use approximately one foot (30.5 cm) of cable (item #13) to connect the positive terminals on the vehicle batteries to the fuse holders. Connect the other end of each fuse holder to the bulkhead pass-through connector from step #6, which is then connected to the crane power switch. Cables connect to the fuse holders using 5/16" (0.79 cm) ring terminals (item #10 - 77040529). Heat shrink connections.

NOTES:

1. Use the highest rating cold-cranking amp battery available up to 1,000 CCA. Underhood and auxiliary batteries must be identical.
2. Use bulkhead pass-through connectors when power or ground passes through a compartment wall.
3. Reference drawing 99904884 for wiring diagram.

Tailgate & Bumper Options

In This Chapter

Tailgate Assembly (51718801)	112
Tailgate - Workbench (51720357)	113
Bumper Hitch & Workbench Options	114

Tailgate Assembly (51718801)

INSTALLATION NOTES:

- 1 INSTALL ROD WELDMENT #2 INTO PANEL #3 SLOTS.
- 2 CONNECT SPRING #7 BETWEEN PANEL #3 BRACKET AND ROD #2 BRACKET.
- 3 JOIN PANEL #1 OVER PANEL #3.
- 4 CONNECT PANEL #1 TO PANEL #3 WITH RIVET #6.
- 5 INSERT LOWER MOUNTING PIN OF MOUNTING BRACKETS #17 AND #18 INTO LOWER HOLE OF ASSEMBLED TAILGATE.
- 6 BOLT ASSEMBLY TO REAR OF BODY.
- 7 CABLE #15 WILL SHARE THE TOP MOUNTING HOLE IN BRACKETS #17 AND #18. ATTACH THE OTHER END OF CABLE TO THE TOP END OF THE TAILGATE TO HOLD THE TAILGATE PARALLEL TO THE CARGO FLOOR.

Stepless Ear Clamp Installation (99904411)

INSTALLING A STEPLESS EAR CLAMP

When there is sufficient room, use standard jaw pincers to position a properly-sized ear clamp on a hose fitted with a hose stem. Close ear clamp fully with uniform force until there is only a 1/16" gap remaining. The visible deformation of the clamp ear provides a visible, instant check that the closure is complete.

INSTALLING A STEPLESS EAR CLAMP IN RESTRICTED SPACE

When space is restricted, use side jaw pincers held parallel to the hose to position and clamp a properly-sized ear clamp on a hose fitted with a hose stem. Close ear clamp fully with uniform force until there is only a 1/16" gap remaining. The visible deformation of the clamp ear provides a visible, instant check that the closure is complete.

REMOVING A STEPLESS EAR CLAMP

To remove a stepless ear clamp, grasp the strip end with a pincer and pull it away.

NOTE: Stepless ear clamps can only be used once. When removed, they must be discarded and replaced with new clamps.

Moisture Separator / Regulator / Oiler Assembly (51714805)

NOTE:

- 1 When installing fittings, seal threads with Pro Lock pipe sealant with teflon (#51464) or equivalent. This sealant is a low strength anaerobic paste. Thread tape is *not* acceptable.

REV A. 20151111			

NOTES (SEE REFERENCE NUMBER IN BOX) :

- 1 THE COMPLETE ASSEMBLY DETAIL IS FOR THE TOP WHICH IS 43" ABOVE THE LOADBED. VIEW A SHOWS THE HINGE-UP DOOR ON THE TOP THAT IS 26" ABOVE THE LOADBED.
- 2 ON ASSEMBLIES WITH HINGE-UP DOORS, THE REAR POST WILL BE FLUSH WITH THE BACK OF THE SIDEPACK.
- 3 ON ASSEMBLIES WITH SWING-OUT DOORS, THE REAR POST WILL BE 0.09" BEHIND THE BACK OF THE SIDEPACK.
- 4 SECURE POST ON THE CRANE BOX SIDE WITH ITEMS #22, 24, 26.
- 5 QUANTITY VARIES PER SIDE.
- 6 HEIGHT BETWEEN SIDEPACK AND TOP- 18.25" FOR TOP WHICH IS 43" ABOVE THE LOADBED; 1" FOR TOP WHICH IS 26" ABOVE THE LOADBED.

- 7 THE FASTENERS ARE TO BE INSTALLED WITH THE NUT "INSIDE" THE COMPARTMENT. THE EXCEPTION IS IF THEY INTERFERE WITH A COMPARTMENT OPTION, SUCH AS ROLLOUT DRAWERS.

Cylinder (51718751) (Thru. 9-05, Eff. 2/07)

NOTES:

- 1 REPLACE ALL COMPONENTS OF THE SEAL KIT WHENEVER THE CYLINDER IS DISASSEMBLED. THIS WILL REDUCE FUTURE DOWNTIME.
- 2 APPLY REGULAR GRADE ANTI-SEIZE AND LUBRICATING COMPOUND TO THREADS ON CYLINDER HEAD ONLY. KEEP AWAY FROM ALL SEALS.
- 3 APPLY "LUBRIPLATE" NO. 630-2 MEDIUM HEAVY, MULTI-PURPOSE LUBRICANT, TO ALL PISTON, HEAD GLAND, AND HOLDING VALVE SEALS, NYLON LOCK RING, CAST IRON PISTON RINGS, AND ROD STINGER THREADS.
- 4
- 5 ITEM #6, STOP TUBE, REPLACES 6A025025 WAFER LOCK. USE STOP TUBE INSTEAD OF WAFER LOCK WHEN RESEALING CYLINDER.
- 6 PRESS LOCKING PIN (ITEM #17) INTO #15 HOLE DRILLED 0.188" DEEP.
- 7 TORQUE PISTON TO 500-530 FT-LB, HEAD TO 350 FT-LB, AND CARTRIDGE TO 30-35 FT-LB.

Wiring Installation (99905415)

HARNESS ROUTINGS & CONNECTION POINTS

PANEL RIBBON CABLE INSTALLATION

POWER PANEL

FRONT VIEW (Dom I-II Panel)

Loose stabilizer ribbon cable (w here applicabl e)
(77441465 - Dom I- II)
(77441466 - Dom III- IV)

Diagram labels: HOURMETERS, FLOOD LIGHT SWITCH PANEL, STABILIZER CONTROL SWITCH PANEL, FUSE PANEL, MOD 3, MOD 1, MOD 1.

Installed light ribbon cable
The ribbon cable on the extension harness is part of the harness.
Light ribbon cable connects between switch panel, Mod 1, and the harness.

Installed stabilizer ribbon cable on Dom I-II.
The ribbon cable for the stabilizers is loose.
On Dom I-II, the stabilizer ribbon connects between the stabilizer switch panel, Mod 1 and Mod 3.
On Dom III-IV, the stabilizer ribbon connects between the stabilizer switch panel, Mod 1, Mod 2 and Mod 3.

NOTE: Views shown are for Dominator I-II. Dominator III-IV have power-out stabilizers and an additional stabilizer module, so there is additional wiring.

NOTES:

- 1 The connection numbers define the type of connection. 100 series (i.e. C-101) means a 1-pin connector; 300 series (i.e. CP-301) means a 3-pin connector. 600-series (CJ-601) are the 6-pin ribbon cable connectors.
- 2 Ribbon cables connect to a module, or to each other at the front of the compartment. Pin connectors connect along the back of the compartment.
- 3 Connection points are defined for standard right-hand crane mount. Connection points will be reversed with left-hand crane mount.
- 4 See graphics for pin connection and ribbon cable connection points.
- 5 See specific harness drawings for complete details on electrical connections and wire markings.

Installed Mod 2

Installed ribbon cable to Mod 2
(Located in the rear compartment on the non-crane side)

Ribbon Cable Replacement Parts (99905415-2)

77441494

77441493

77441494

77441495

RIBBON CABLE REPLACEMENT PARTS	
77441493	CABLE-RIBBON 6-PIN
77441494	CONNECTOR-RIBBON (FEM)
77441495	PLUG-RIBBON CABLE (2 PC MALE)

Ribbon Cable Connection Replacement Instructions

To replace the connection on a ribbon cable assembly:

- 1 Identify the connection which requires replacement. Position the connection such that the red line and arrow are both on the right side.

- 2 Place the new ribbon cable plug (77441495) approximately 1" from the inside edge of the connection to be replaced. Center the ribbon cable in the plug. Keep the arrow on the same side of the red line as the original connection.

- 3 Install the new retainer into the plug as shown. Lock one side into the plug by hand, then press in the other side until it clicks into place. Snap the retainer into place to hold the plug and connector together. Cut off the original connection assembly and ribbon close to the new connection point.

Dominator Electrical Troubleshooting

LIGHTING & AUXILIARY FUNCTIONS		
TROUBLESHOOTING STEPS	DESIRED RESULT	RESOLUTION
1) Verify that the vehicle ignition and e-brake are both ON.	Blue backlight for the lighting functions on the Dominator switch panel should be lit.	If blue backlight does not light, there is not operational power to the switch panel.
2) Press any light function on the Dominator switch panel.	If light function is getting a signal, a red LED should light above the switch.	If red LED does not light, check the fuses in the fuse panel at the front of the switch panel. Replace if required.
	Unplug the ribbon cable connectors to isolate the faulty harness.	Connect if disconnected.
		Replace if pinched.

LIGHTING & AUXILIARY FUNCTIONS		
TROUBLESHOOTING STEPS	DESIRED RESULT	RESOLUTION
3) Move around the body, checking the ribbon cable between the braid and the connector at each connection point. A fault at any point in the ribbon cable connection will cause the blue power panel backlight to turn off. Checking each ribbon cable connection will isolate the harness with the fault. Check the ribbon connections in the following order: A) Right rear sidepack - connection in the back corner between the 77441437 DOT harness and power panel harness. B) Left rear sidepack - connection in the back corner between 77441437 DOT harness and 77441439 left side harness. C) Left rear sidepack - connection in the front corner between 77441439 left side harness and the extension light harness.	If the blue backlight on the switch panel turns on once a harness is unplugged, the harness is good and the fault lies further downline from the tested harness. (Similar to a string of Christmas tree lights, where a single loose bulb can cause the entire string to go out.) Ribbon should be securely connected and not pinched. Be sure to reconnect the ribbon harness before moving to the next location.	If there is a fault in the ribbon cable on the lighting harness on the left (non-crane) side of the body, that cable can be swapped with the lighting harness on the right (crane) side of the body, as the crane side lighting harness does not use the ribbon cable signal.
4) Check the ribbon cable connection to the front switch panel, in the front left compartment.	Ribbon should be securely connected and not pinched.	Connect if disconnected. Replace if pinched.
5) Check the ribbon cable connection on the back of the power panel.	Ribbon should be securely connected and not pinched.	Connect if disconnected. Replace if pinched.
6) Test the modules in the panel, in the right rear compartment, and at the switch panel.	Replace any faulty module(s).	Contact IMT Technical Support for further assistance if the troubleshooting steps do not resolve the problem.
STABILIZER FUNCTIONS		
TROUBLESHOOTING STEPS	DESIRED RESULT	RESOLUTION
1) Verify that the vehicle ignition is ON; the e-brake is set; and the PTO is engaged.	Blue backlight for both the lighting functions and the stabilizer functions on the Dominator switch panel should be lit.	If neither blue backlight is lit, check the operational power to the switch as described above.
2) If blue backlight is lit for the lighting functions only, there may be a problem with the stabilizer modules on the switch panel. Remove the Dominator switch panel for further troubleshooting.	Check for secure connections on the stabilizer ribbon cable.	Secure connections if loose. Replace if pinched or damaged.
	Check the white PTO ground wire plugged into the vertical Mod 1 unit.	Secure connections if loose.
	Check the I-1 wire (white) on the vertical Mod 1 unit.	Secure connections if loose. If connections are secure, check for a 12v signal to the I-1 wire.
		If there is a 12v signal, replace the Mod 1 unit. Contact IMT Technical Support for further assistance if the troubleshooting steps do not resolve the problem.

77441647 S/T/T

NOTES:

1. UNLESS OTHERWISE NOTED, BRAIDING STOPS 4" FROM BACK OF CONNECTOR.
2. ALL WIRE TO BE GXL.
3. ORIENT CONNECTOR AS SHOWN.

PROTECTIVE LOOM DETAILS:

HIGH TEMPERATURE RESISTANT VINYL COATED YARN

PHYSICAL PROPERTIES:

MOISTURE AND WEATHER RESISTANT

FIRE AND OIL RESISTANT

HIGH ABRASION RESISTANT (SEE SAE 20:20.106 J562)

TEMPERATURE RESISTANT FROM +280° TO -65°F

YARN COLOR TO BE BLACK WITH YELLOW STRIPING

YARN SHOULD BE BRAIDED WITH WEAVE TIGHTNESS OF 12 PICKS PER INCH.

NOTES:

1. UNLESS OTHERWISE NOTED, BRAIDING STOPS 4" FROM BACK OF CONNECTOR.
2. ALL WIRE TO BE GXL.
3. ORIENT CONNECTOR AS SHOWN.

PROTECTIVE LOOM DETAILS:

HIGH TEMPERATURE RESISTANT VINYL COATED YARN

PHYSICAL PROERTIES:

- MOISTURE AND WEATHER RESISTANT
- FIRE AND OIL RESISTANT
- HIGH ABRASION RESISTANT (SEE SAE 20:20.106 J562)
- TEMPERATURE RESISTAN FROM +280° TO -65°F

YARN COLOR TO BE BLACK WITH YELLOW STRIPING

YARN SHOULD BE BRAIDED WITH WEAVE TIGHTNESS OF 12 PICKS PER INCH.

REV E 20140505

- 1 Drill hole the same size as the wire harness. Wire must enter compartment alongside of bracket. Seal finished opening with caulk.
- 2 Route wire through base of flood light.
- 3 Create "drip loop" before wire enters compartment.
- 4 Drill holes to mount light bracket. Holes will also align with the hole pattern for a masterlock kit.
- 5 Master lock parts shown only for reference.

Compressor Decal Placement 301

Decal List

Dominator I, II, III, and IV have many common and some unique decals. See the chart below and the decal application photos on subsequent pages for application details.

ITEM	DECAL PART #	DESCRIPTION	QTY PER BODY	MODEL	NOTES
1.	95724102	DOMINATOR DECAL KIT	1	ALL	INCLUDES ITEMS 2-13
2.	70392213	DECAL-CAUTION DONT WASH/WAX	1	ALL	
3.	70392309	DECAL-DIESEL FUEL ONLY	2	ALL	FOR DIESEL ENGINES ONLY
4.	70392982	DECAL-SERVICE & REPAIR(GARNER)	1	ALL	FOR GASOLINE ENGINES ONLY
5.	70392453	DECAL-UNLEADED GASOLINE ONLY	2	ALL	
6.	71393886	DECAL-DANGER EXPLODING TANK	1	ALL	
7.	70391601	DECAL-AIR TANK DRAIN	1	ALL	
8.	70398983	DECAL-CAUTION, WELDING DAMAGE	1	ALL	BY LIGHT BOX ON REAR OF VEHICLE
9.	70399138	DECAL-DOMINATOR IDENT (III)	2	ALL	
10.	70399191	DECAL-WARNING, NO STEP	3	ALL	
11.	70399192	DECAL-WARNING, SLIP	2	ALL	
12.	70399193	DECAL-DANGER, HYD FLUID	1	ALL	
13.	70399141	DECAL-DIAMOND IMT 9.25X18.50 REFL	1	ALL	
14.	70399114	DECAL-ELECTRICAL PANEL LAYOUT	1	DOM I-II	
15.	70399115	DECAL-ELECTRICAL PANEL LAYOUT	1	DOM III-IV	
16.	70398872	DECAL-STABILIZER MAN OP,SOFT SHIFT (DI-II)	1	DOM I-II	
17.	70398873	DECAL-STABILIZER MANUAL OP D4 SOFT SHIFT	1	DOM III-IV	
18.	70397063	DECAL-HITCH, RECEIVER 2000V-16000P	1	DOM I, II	
19.	70397064	DECAL-HITCH, PINTLE 6000V-30000P	1	DOM II, III & IV	
20.	70399271	DECAL-STABILIZER FULLY DEPLOYED	3	ALL	ON STABILIZER ARMS WHEN FULLY DEPLOYED.

IMT Diamond and Logo Placement

Place the Dominator ID decal (70399138), item #1, on each side of the vehicle. Place IMT diamond (70399141), item #2, on the tailgate.

Body Safety Decal Placement

ITEM	PART NO.	DESCRIPTION	QTY
1	70394445	DANGER ELECTROCUTION HAZARD LARGE TELESCOPIC	3
2	70392868	WARNING LOAD LINE	3
3	70396748	DANGER ELECTROCUTION HAZARD MEDIUM TELESCOPIC	1
4	70392863	WARNING HOISTING PERSONNEL	1
5	70399192	WARNING-BODY HAZARDS	2
6	70398983	CAUTION WELDING DAMAGE	1
20160912			

**Notes:**

Decals numbers 1 & 2 are located on three sides of the body. Decals number 3 & 4 are located on the front bumper only. Decal number 5 is placed by the light box on each side of the Dominator. Decal number 6 is located next to the left side light box.

Dominator Control Decal Placement

1	70399114	Decal-Dominator Electrical Panel (Dom I-II) (Dom III-IV uses 70399115)
---	----------	--

Crane Safety Decals on Dominator Door

Hydraulic Oil Reservoir Decals

Place 70399193-Decal-Danger, Hydraulic Fluid and 70394189, Decal-Hydraulic Oil Recommendations, on top of the hydraulic tank and on the right side of the fill cap. Decals must be legible from inside the load bed.

Fuel Tank Decal Placement

70392309
Diesel Fuel Only.
Place on diesel fuel
tank near fuel cap.

Note: If unleaded gas fuel tank, use decal part number 70392453.

Air Tank Decal Placement

70391601-Air tank drain, located on door where air tank is stored.

71393886-Exploding tank tank decal, located on door where air tank is stored.

Stabilizer Decal Placement

1	70391598	Decal-Warning, Manual Stabilizers. Place on each rear stabilizer.
2	70392864	Decal - Warning, Stabilizer Crushing Hazard. Placed on rear stabilizers as shown, and on front sidepacks.

Reflector & Hitch Decal Placement

Place four red reflector decals, 70039057, item #1, at the sides and outer edges of the tailgate as shown.

Place two amber reflector decals, 70039058, item #2, at the front of the sidepacks as shown.

Place the welding caution decal, 70398983, item #3, on the side of the light box at the left rear of the body.

Place a hitch decal, item #4, above the hitch on the rear of the body. Typically, Dominator I, II and DSC use 70397063 - Receiver Hitch, 2000 lb tongue and 16,000 lb gross trailer weight. Typically, Dominator II and IV use 70397064 - Pintle Hitch, 6000 lb tongue and 30,000 lb gross trailer weight.

Compressor Decal Placement

Decal placement on a CAS435HA compressor:

Decal placement on a CAS3560 compressor:

Part of
95718232
compressor
decal sheet

Note: All decals for the CAS3560 air compressor are included on decal sheet 95718232. See the CAS3560 manual for complete decal placement information.

1 1/2-6	1.5	1950	1460	3160	2370

NOTES

- 1 Tightening torques provided are midrange.
- 2 Consult bolt manufacturer's particular specifications, when provided.
- 3 Use flat washers of equal strength.
- 4 All torque measurements are given in foot-pounds.
- 5 Torque values specified are for bolts with residual oils or no special lubricants applied. If special lubricants of high stress ability, such as Never-Seez compound graphite and oil, molybdenum disulphide, colloidal copper or white lead are applied, multiply the torque values in the charts by the factor .90. The use of Loctite does not affect the torque values listed above.

WARNING

Anytime a gear-bearing bolt is removed, it must be replaced with a new bolt of the identical grade and size. Once a bolt has been torqued to 75% of its proof load and then removed, the torque coefficient may no longer be the same as when the bolt was new thus giving indeterminate clamp loads after torqueing. Failure to replace gear-bearing bolts may result in bolt failure due to metal fatigue causing death or serious injury.
